

# CANADA 150 BANK NOTE

Now available at a financial  
institution near you

## New \$10 Commemorative Note Now Available

Starting today, 1 June 2017, the \$10 bank note marking Canada's 150th anniversary of Confederation is **now available** to Canadians through their financial institutions.

The **Canada 150 bank note** celebrates Confederation with a unique design depicting our history, land and culture.

Forty million notes will be issued and will circulate alongside the existing \$10 note. As this note is being issued in limited volume and may be retained by Canadians, circulation may be limited. Retailers should contact their equipment suppliers or manufacturers with any questions about machine compatibility.

This commemorative note has some new **security features** and others that are similar to those of the current *Polymer* series notes. These features make the note easy to check and difficult to counterfeit.

Visit the Bank of Canada's website for **educational tools** to help you recognize this historic addition to Canada's currency.

**Cliquez ici** pour visualiser l'information en français.

Watch the **security features video**.

Download a **fact sheet** on the Canada 150 note's security features.
