# Context of the Quarterly Financial Report

The Bank of Canada (the Bank) is the nation's central bank. Its mandate, as defined in the *Bank of Canada Act*, is "to promote the economic and financial welfare of Canada."

The Bank is committed to keeping Canadians informed about its policies, operations and activities.

This discussion has been prepared in accordance with section 131.1 of the *Financial Administration Act* and follows the guidance outlined in the Standard on Quarterly Financial Reports for Crown Corporations issued by the Treasury Board of Canada Secretariat.

Management is responsible for the preparation of this report, which was approved on 19 November 2015 by the Audit and Finance Committee of the Board of Directors.

The Quarterly Financial Report should be read in conjunction with the financial statements included in this report and with the Bank's Annual Report for 2014. The Annual Report includes a Management Discussion and Analysis (MD&A) for the year ended 31 December 2014. Disclosures and information in the 2014 Annual Report and the MD&A apply to the current quarter unless otherwise updated in this quarterly report.

# Performance Against Plan

On a triennial basis, the Bank establishes a strategic medium-term plan that provides a road map for the next three years. The 2013–15 medium-term plan (MTP), *Building on Excellence: Strength, Stability and Confidence*, focuses on three strategic priorities: performing superior policy analytics; building a resilient global and domestic financial system; and delivering excellent services to meet the evolving needs of Canadians, financial markets and the Government of Canada.

The MTP also describes the Bank's strategic investments in people, infrastructure and resilience, together with its continued commitment to carefully manage public funds. The Financial Plan, the Infrastructure and Resilience Plan, and the Human Resources Plan support the Bank's day-to-day activities, as well as the achievement of its strategic and functional priorities.

The Financial Plan (the Plan) takes into account the Bank's responsibility, as a public institution, to always exercise prudent financial management and ensure that resources are allocated to priorities that add the most value. It also reflects the Bank's commitment to adhere to the spirit and intent of the government's 2012 Deficit Reduction Action Plan by embedding reduced operating costs. Accordingly, the Plan incorporates growth of 2 per cent between 2012 and 2015, or zero real growth, consistent with inflation averaging 2 per cent—the Bank's target. Real increases necessary to ensure the delivery of the Bank's mandate are matched by equivalent reductions.

The Bank made significant progress in 2013 and 2014 against the objectives set out in the MTP, while managing operating expenses within the Plan estimates.

#### The Bank's 2015 Plan

(Millions of Canadian dollars)

	2015 budget	2014 actual
MTP operating expenses	363.0	348.0
Bank note production	73.0	96.0
Non-current deferred employee benefits	14.0	(3.0)
MTP programs, including Head Office Renewal	19.0	37.0
Total expenses	469.0	478.0

#### 2015 Outlook

The Bank's forecasts for its operations do not include projections of net income and financial position. Such projections would require assumptions about interest rates, which could be interpreted as a signal of future monetary policy.

Total operating expenses in 2015 are budgeted to decrease by \$9 million from 2014 levels.

Expenses related to bank note production are budgeted to be lower than in 2014 as a result of

lower production volumes. Operating costs associated with the Head Office Renewal Program are also budgeted to decrease in 2015, since the majority of costs associated with the project will be capital in nature.

In 2015, the Bank also budgeted to incur \$208 million in capital expenditures, of which the majority relates to the Head Office Renewal Program.

At the end of the third quarter, the Bank was on track to deliver on its full-year Financial Plan.

## **Financial Discussion**

#### **Financial Position**

The Bank's *Total assets* and *Total liabilities and* equity have increased by \$3,607.7 million since 31 December 2014 as a result of seasonal fluctuations in bank notes in circulation.

#### **Assets**

As the exclusive issuer of bank notes, the Bank invests proceeds from the issuance of notes into Government of Canada securities. *Investments* have increased by \$6,110.9 million (7 per cent).

Government of Canada treasury bills increased by \$2,555.9 million and Government of Canada bonds increased by \$3,510.7 million. The balance of the change in investments resulted from an increase of \$44.3 million in the fair value of the Bank's investment in shares of the Bank for International Settlements (BIS).

As at 30 September 2015, Loans and receivables consisted primarily of an advance to a member of the Canadian Payments
Association; there were no purchase and resale agreements (PRAs) outstanding at
30 September 2015. The PRAs that were outstanding at year-end 2014 matured in January 2015.

## **Highlights of the Statement of Financial Position**

(Millions of Canadian dollars)

		As at
	30 September	31 December
	2015	2014
Assets		
Cash and foreign deposits	9.0	8.4
Loans and receivables	170.9	2,768.4
Investments	96,937.3	90,826.4
Capital assets <sup>a</sup>	424.4	327.7
Other assets	178.2	181.2
Total assets	97,719.8	94,112.1
Liabilities and Equity		
Bank notes in circulation	72,391.4	70,023.5
Deposits	24,253.0	23,195.6
Other liabilities	576.8	443.7
Equity	498.6	449.3
Total liabilities and equity	97,719.8	94,112.1

a. Includes Property and equipment and Intangible assets

The increase in Capital assets resulted from capital spending related to the Bank's Head Office Renewal Program.

Other assets have decreased by \$3.0 million since 31 December 2014, owing mainly to a decrease of \$8.3 million in the net definedbenefit asset related to the Bank's registered pension plan. The decrease in the net definedbenefit asset<sup>1</sup> is the result of lower asset returns. partially offset by an increase in the discount rate used to value benefit obligations (as described in the discussion of Other comprehensive income). This decrease was

#### Liabilities

The bank note liability represents approximately 74 per cent of the Bank's Total liabilities and equity. Bank notes in circulation have increased by 3 per cent since 31 December 2014. This liability increases over time with the growth in demand for bank notes and is also subject to seasonal variations.3

offset by a \$5.0 million increase in advances related to the Head Office Renewal Program.<sup>2</sup>

<sup>&</sup>lt;sup>1</sup> The net defined-benefit liability/asset is measured using the discount rate in effect as at the period-end. The rate at 30 September 2015 was 4.2 per cent (4.0 per cent at 31 December 2014).

<sup>&</sup>lt;sup>2</sup> The advance is to facilitate the timely payment of the subcontractor agreements and is expected to remain in place through to the end of the construction period.

<sup>&</sup>lt;sup>3</sup> The *Bank notes in circulation* liability typically reaches its lowest level at the end of the first guarter and peaks in the second and fourth guarters around holiday periods.

The second-largest liability on the balance sheet consists of deposits held for the Government of Canada and other financial institutions. The main components of the *Deposits* liability are \$2,432.2 million held for the Government of Canada for operational balances and \$20,000.0 million held for the Government's prudential liquidity-management plan. The Government of Canada operational balances increased by \$905.6 million compared with yearend 2014.

Other liabilities consist mainly of the accrued profit transfer to the Receiver General for Canada and the defined-benefit liabilities for the Bank's deferred employee benefit plans.

Changes in the accrued profit transfer liability are the result of the timing of cash payments to the Receiver General for Canada. Net income earned on the Bank's assets, after deductions for operating expenses and allocations to reserves, is paid each year to the Receiver General. At 30 September 2015, the unremitted balance was \$274.7 million<sup>5</sup> (\$150.4 million at 31 December 2014).

The liabilities related to defined-benefit plans decreased by \$1.5 million as a result of an increase in the discount rate used to value these (as described in the discussion of *Other comprehensive income*).<sup>1</sup>

Since 31 December 2014, the Bank's *Equity* has increased by \$49.3 million as a result of fairvalue increases in the Bank's investment in the BIS and the portfolio of Government of Canada treasury bills. Fair-value changes related to the Bank's investment in the BIS and the portfolio of Government of Canada treasury bills are reported in *Other comprehensive income* and accumulated in the available-for-sale reserve within *Equity* (see note 11 of the condensed interim financial statements). As at 30 September 2015, this reserve totalled \$368.6 million and consisted primarily of the fairvalue change in the Bank's investment in the BIS.

<sup>&</sup>lt;sup>4</sup> The operating portion of the deposit is dependent on the cash needs of the Government of Canada, and fluctuations that occur are a result of decisions related to cash-flow management.

<sup>&</sup>lt;sup>5</sup> For the nine months ended 30 September 2015, the Bank transferred cash payments of \$775.4 million.

#### Net Income and Comprehensive Income

## **Highlights of the Statement of Net Income**

(Millions of Canadian dollars)

	For the	ne three-month	For the nine-month		
	20.00	period ended		period ended	
				30 September	
	2015	2014	2015	2014	
Income					
Interest revenue	432.4	450.3	1,324.7	1,354.2	
Interest expense	(26.6)	(57.3)	(101.4)	(163.8)	
Other revenue	2.0	1.9	6.8	5.6	
Total income	407.8	394.9	1,230.1	1,196.0	
Expenses					
Staff costs (includes salaries and employee benefits)	51.3	41.2	159.8	140.7	
Bank note research, production and processing	16.5	13.9	47.7	66.4	
Other expenses	40.2	47.7	124.7	138.9	
Total expenses	108.0	102.8	332.2	346.0	
Net income	299.8	292.1	897.9	850.0	

#### Income

The Bank's primary source of income is interest revenue derived from investments in Government of Canada securities. This income will fluctuate based on market conditions. Total income for the third quarter of 2015 was \$407.8 million, an increase of \$12.9 million, or 3 per cent, compared with the same period in the previous year. On a year-to-date basis, income grew by \$34.1 million, or 3 per cent.

The Bank's Interest revenue<sup>6</sup> consists mainly of interest revenue from treasury bills and bonds. In the first nine months of 2015, the Bank

recorded \$1,319.3 million in interest revenue from treasury bills and bonds, a decrease of \$30.5 million compared with the same period in 2014. The decrease in Interest revenue is due mainly to lower yields on newly acquired treasury bills and bonds, compared with yields on investments that have matured. Also included in Interest revenue are dividend revenue and interest earned on PRAs, which increased by \$1.0 million year-to-date.

Income is reported net of the interest paid on Government of Canada deposits. For the nine months ended 30 September 2015 interest expense on deposits was \$101.4 million. Interest rates paid on deposits are based on marketrelated rates, which decreased significantly over the comparable period in 2014, resulting in a lower interest expense on deposits.

<sup>&</sup>lt;sup>6</sup> Interest revenue consists of *Interest earned on* investments. Dividend revenue. Interest earned on securities purchased under resale agreements and Other interest revenue.

The Bank's revenue from its remaining sources<sup>7</sup> increased slightly from 2014 levels.

#### **Expenses**

Total expenses increased by \$5.2 million for the third quarter of 2015 compared with the same period in the previous year, and, on a year-to-date basis, expenses decreased by \$13.8 million relative to 2014. Operating expenses were in line with expectations and decreased for the nine-months ended 30 September 2015 compared with the same period in the previous year owing to the lower production of polymer bank notes and lower premises costs.

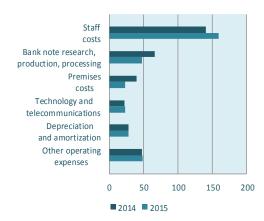

Costs associated with bank note production were \$2.6 million higher in the guarter, and \$18.7 million lower year-to-date, compared with the same periods in 2014. The Bank is benefiting from the adoption of polymer notes, which are lasting at least 2.5 times longer than paper bank notes. Because the notes are lasting longer, reducing the need to replace unfit notes, the production of new notes is decreasing. During the first nine months of 2015, 189 million polymer notes were received, compared with 319 million notes received over the same period in 2014. Production was higher during the quarter because of the issuance of the commemorative \$20 bank note. During the quarter, 67 million polymer notes were received compared with 57.5 million notes received over the same period in 2014.

Excluding the impact of the polymer bank notes, the increase in expenses is \$2.6 million in the quarter, and \$4.9 million year-to-date, and is broadly distributed among staff costs, technology costs, premises costs and depreciation.

Staff costs increased by \$10.1 million in the third quarter and by \$19.1 million for the first nine months of 2015 compared with the same periods in 2014. The increase was the result of higher benefit costs associated with the Bank's defined-benefit plans, which were driven by changes in discount rates and not by changes to the benefits entitlements. Benefit costs for the first nine months of 2015 increased by \$14.6 million compared with the same period in 2014 as a result of a lower discount rate.

The remaining expenses (premises, technology and telecommunications, depreciation and amortization, and other operating expenses) represent 37 per cent of the Bank's total operating expenses in the quarter. These costs decreased by \$7.5 million in the third quarter and by \$14.2 million year-to-date compared with the same periods in 2014. Decreases in *Premises costs* of \$7.1 million in the quarter and \$17.2 million year-to-date are related to demolition costs incurred in 2014 associated with the Bank's Head Office Renewal Program.

<sup>&</sup>lt;sup>8</sup> Expenses associated with the defined-benefit plans are measured using the discount rate in effect at the previous year-end. Expenses for 2015 are based on a discount rate of 4.0 per cent (4.9 per cent in 2014).

<sup>&</sup>lt;sup>7</sup> Other sources of revenue include interest earned on lending facilities and client deposits as well as safekeeping and custodial fees.

# Highlights of the Statement of Comprehensive Income

(Millions of Canadian dollars)

	For th	e three-month period ended	For the nine-mont period ende		
	30 September	30 September	30 September	30 September	
	2015	2014	2015	2014	
Net income	299.8	292.1	897.9	850.0	
Other comprehensive income (loss)	(7.4)	(21.1)	51.1	(101.2)	
Comprehensive income	292.4	271.0	949.0	748.8	

Other comprehensive income, Equity and Reserves, and Remittances

Net income was \$299.8 million for the quarter and \$897.9 million year-to-date. The increase in net income relative to 2014 was driven mainly by lower interest expenses in 2015.

Other comprehensive income (loss) of -\$7.4 million for the quarter includes remeasurement losses of \$27.0 million on the Bank's defined-benefit plan assets and liabilities. The losses were offset by an increase of \$19.6 million in the fair values of available-forsale (AFS) assets. On a year-to-date basis, Other comprehensive income (loss) of \$51.1 million includes remeasurement gains on defined-benefit plans of \$1.8 million and increases of \$49.3 million in the fair values of AFS assets.

Remeasurements<sup>9</sup> are affected by the return on plan assets and by changes in the discount rate used to determine defined-benefit obligations. Asset returns for the nine months ended 30 September 2015 reflect market volatility in the plan's equity portfolio (overall negative plan return of approximately 1%). The discount rate used to value the net defined-benefit

liability/asset increased from the prior year

AFS assets are composed of Government of Canada treasury bills and the Bank's investment in the BIS. Fair-value changes are accumulated in the reserve for AFS assets within the Bank's *Equity* (see note 11 of the condensed interim financial statements). At 30 September 2015, the fair value of the Bank's investment in the BIS was \$399.5 million, representing an increase of \$44.3 million since year-end 2014. The remainder of the change related to fair-value changes in the Bank's portfolio of treasury bills.

#### Transfer to Receiver General for Canada

In accordance with the requirements of the *Bank* of *Canada Act*, the Bank remits its surplus income, after funding its operations, to the Receiver General for Canada and does not hold retained earnings. The Bank's operations are not constrained by its cash flow or by its holdings of liquid assets because income is predictable and exceeds its expenses. The balance of this income, less agreed reserves and deductions, is remitted to the Receiver General for Canada. This amount was \$899.7 million for the first nine months of 2015.

end<sup>10</sup>.

<sup>&</sup>lt;sup>9</sup> The Bank recognizes all remeasurements of the net defined-benefit liability/asset on post-employment defined-benefit plans immediately in *Other comprehensive income* at each reporting period.

<sup>&</sup>lt;sup>10</sup> The net defined-benefit liability/asset is measured using the discount rate in effect as at the period-end. The rate at 30 September 2015 was 4.2 per cent (4.0 per cent at 31 December 2014).

The remittance agreement with the Minister of Finance allows the Bank to deduct from its remittances to the Receiver General and hold within retained earnings an amount equal to unrealized losses on AFS assets, unrealized remeasurement losses on post-employment defined-benefit plans, and other unrealized or non-cash losses. Subsequently, amounts held back are issued upon the recognition of unrealized gains.

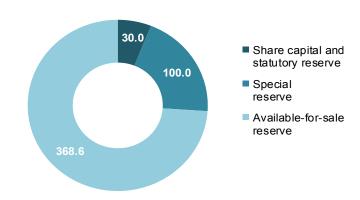

As a result of actuarial gains on the definedbenefit plans in the first nine months of 2015, the Bank reimbursed \$1.8 million from its previously withheld remittances to its transfers to the Receiver General. At 30 September 2015, \$125.2 million in withheld remittances was outstanding.

#### Equity

The Bank's primary equity includes \$5 million of authorized share capital and a \$25 million statutory reserve. The Bank also holds a special reserve of \$100 million to offset valuation losses arising from changes in the fair value of AFS assets (see note 11 of the condensed interim financial statements). There has been no change in the reserve since its inception.

The largest reserve held by the Bank is the available-for-sale reserve (discussed above).

Bank of Canada Equity (Millions of Canadian dollars)

# Operational Highlights and Changes

The following describes any significant changes in operations, personnel and programs that have occurred since 30 June 2015.

Management and Board of **Directors** 

There were no changes during the quarter.

**Operations** and Programs

On 30 September 2015, the Bank announced changes to its framework for Financial Market Operations.

http://www.bankofcanada.c a/2015/09/changes-bankcanada-framework/

In connection with this revised framework, the Bank introduced a regular program of term repo operations (for one- and three-month terms) that will be built up to a target portfolio size of \$7,000 million to \$10,000 million over a six month implementation period. As well, the Bank announced a corresponding decrease in its minimum purchase of nominal bonds at auction from 20 per cent to 15 per cent, effective 1 October 2015.

# Risk Analysis

The Risk section of the Management Discussion and Analysis (MD&A) for the year ended 31 December 2014 outlines the Bank's riskmanagement framework and risk profile and reviews the key areas of risk—financial risk, business risk and enterprise risk.

The financial risks are discussed further in the notes to the 31 December 2014 Financial Statements, which are included in the Bank's Annual Report for 2014.

http://www.bankofcanada.ca/2015/03/annualreport-2014/

The risks identified in the MD&A remain the key risks for the Bank.

# **Financial Statements**

30 September 2015

#### MANAGEMENT RESPONSIBILITY

Management is responsible for the preparation and fair presentation of these condensed interim financial statements in accordance with the requirements of International Accounting Standard 34, *Interim Financial Reporting*, and for such internal controls as management determines are necessary to enable the preparation of condensed interim financial statements that are free from material misstatement. Management is also responsible for ensuring that all other information in the quarterly financial report is consistent, where appropriate, with the condensed interim financial statements.

Based on our knowledge, these unaudited condensed interim financial statements present fairly, in all material respects, the financial position, results of operations and cash flows of the corporation, as at the date of and for the periods presented in the condensed interim financial statements.

# NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS OF THE BANK OF CANADA

For the period ended 30 September 2015

(Amounts in the notes to the condensed interim financial statements of the Bank of Canada are in millions of Canadian dollars, unless otherwise stated.)

#### 1. The business of the Bank of Canada

The Bank of Canada (the Bank) is the nation's central bank. The Bank is a corporation established under the *Bank of Canada Act*, is wholly owned by the Government of Canada and is exempt from income taxes. The Bank is a Government Business Enterprise as defined by the Public Sector Accounting Board Handbook and, as such, adheres to the standards applicable to publicly accountable enterprises as outlined by the Chartered Professional Accountants of Canada (CPA Canada).

The address of the registered head office is 234 Laurier Avenue West, Ottawa, Ontario.

The responsibilities of the Bank focus on the goals of low and stable inflation, financial system stability, a safe and secure currency, and the efficient management of government funds and public debt. These responsibilities are carried out as part of the broad functions described below.

#### Monetary policy

Contributes to solid economic performance and rising living standards for Canadians by keeping inflation low, stable and predictable.

#### Financial system

Promotes the stability and efficiency of Canada's financial system, both within Canada and globally.

#### Currency

Designs, produces and distributes Canada's bank notes and replaces worn notes. The Bank deters counterfeiting through leading-edge bank note design, public education and collaboration with law-enforcement agencies.

#### **Funds management**

Provides effective and efficient funds-management services for the Government of Canada and administers and advises on the public debt and foreign exchange reserves. In addition, the Bank provides banking services to foreign central banks as well as to critical payment clearing and settlement systems.

The Bank's activities and operations are undertaken in support of its core mandate and not with the objective of generating revenue or profits. It does not offer banking services to the public. The Bank has the exclusive right to issue Canadian bank notes, and the face value of these bank notes is the most significant liability on the Bank's balance sheet. The Bank invests the proceeds from the issuance of bank notes into Government of Canada securities, which are acquired on a non-competitive basis. These assets enable the Bank to execute its responsibilities for the monetary policy and financial system functions.

Interest income derived from Government of Canada securities is the Bank's primary source of revenue each year. The income generated from the assets backing the bank notes in circulation (net of bank note production and distribution costs) is referred to as "seigniorage," which provides a stable and constant source of funding for the Bank's operations, enabling it to function independently of government appropriations. A portion of this revenue is used to fund the Bank's operations and reserves; the remaining net income is remitted to the Receiver General in accordance with the requirements of the *Bank of Canada Act*.

#### 2. Basis of preparation

These condensed interim financial statements have been prepared in accordance with International Accounting Standard 34, *Interim Financial Reporting* (IAS 34), as issued by the International

Accounting Standards Board (IASB). These condensed interim financial statements do not include all of the information and disclosures required for full annual financial statements and should be read in conjunction with the Bank's audited financial statements for the year ended 31 December 2014. When necessary, the condensed interim financial statements include amounts based on informed estimates and the judgment of management. The results of operations for the interim period reported are not necessarily indicative of results expected for the year.

The Audit and Finance Committee of the Board of Directors approved the condensed interim financial statements on 19 November 2015.

#### Measurement base

The condensed interim financial statements have been prepared on the historical cost basis, except for the available-for-sale (AFS) financial assets, which are measured at fair value, and the net defined-benefit liability/asset of employee benefit plans, which is recognized as the net of the fair value of plan assets and the present value of the defined-benefit obligation.

#### Significant accounting estimates and judgments in applying accounting policies

The preparation of the condensed interim financial statements requires management to make judgments, estimates and assumptions, based on information available at the statement date, that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses, as well as related information. The Bank based its assumptions and estimates on information that was available when these condensed interim financial statements were prepared. Existing circumstances and assumptions about future developments may change, however, in response to market fluctuations or circumstances that are beyond the control of the Bank. In such cases, the impact will be recognized in the financial statements of a future period.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. Significant estimates are primarily in the area of the fair values of certain financial instruments and collateral taken (note 4) and employee benefit plans (note 10).

#### Seasonality

The total value of bank notes in circulation fluctuates throughout the year as a function of the seasonal demand for bank notes. Bank notes in circulation are at their lowest level at the end of the first quarter, while demand peaks in the second and fourth quarters around holiday periods. During periods of high seasonal demand, the Bank may issue term purchase and resale agreements to offset the increased bank note liability.

#### **Functional and presentation currency**

The Bank's functional and presentation currency is the Canadian dollar.

#### Fiscal-agent and custodial activities

Responsibility for the operational management of the Government of Canada's financial assets and liabilities is borne jointly by the Bank (as fiscal agent for the Government) and the Department of Finance. In this fiscal-agent role, the Bank provides transactional and administrative support to the Government of Canada in certain areas. The assets, liabilities, expenditures and revenues to which this support relates are those of the Government of Canada and are not included in the condensed interim financial statements of the Bank.

Securities safekeeping and gold custodial services are provided to foreign central banks and international organizations. The assets, and the income arising therefrom, are excluded from these condensed interim financial statements because they are not assets or income of the Bank.

#### 3. Significant accounting policies

The accounting policies used in the preparation of the condensed interim financial statements are consistent with those disclosed in the Bank of Canada's financial statements for the year ended 31 December 2014.

#### 4. Financial instruments

The Bank's financial instruments consist of cash and foreign deposits, securities purchased under resale agreements, advances to members of the Canadian Payments Association, other receivables, investments (consisting of Government of Canada treasury bills, Government of Canada bonds and other investments), bank notes in circulation, deposits and other liabilities (excluding the net defined-benefit liability for pension benefit plans and other employee benefit plans).

The Bank operates a Securities Lending Program to support the liquidity of Government of Canada securities by providing the market with a secondary and temporary source of these securities. At 30 September 2015, there were no loaned securities in the Bank's investments (investments included loaned securities with a fair market value of \$185.8 million and an amortized cost of \$175.0 million at 31 December 2014).

#### **Measurement of financial instruments**

Cash and foreign deposits, Government of Canada treasury bills and shares in the Bank for International Settlements (BIS) are measured at fair value. All other financial instruments are measured at amortized cost using the effective interest method, with the exception of bank notes in circulation, which are measured at face value.

#### Financial instruments measured at fair value

Financial instruments measured at fair value are classified using a fair-value hierarchy that reflects the significance of the inputs used in making the measurements:

Level 1—quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2—inputs other than quoted prices included in Level 1 that are observable for the assets or liabilities, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and

Level 3—inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

The fair-value hierarchy requires the use of observable market inputs wherever such inputs exist. In measuring fair value, a financial instrument is classified at the lowest level of the hierarchy for which a significant input has been considered.

	Level 1	Level 2	Level 3	Total
Financial assets at fair value as at 30 Sep	tember 2015			
Government of Canada treasury bills	21,942.4	-	-	21,942.4
BIS shares	-	-	399.5	399.5
	21,942.4	-	399.5	22,341.9
Financial assets at fair value as at 31 Dec Government of Canada treasury bills BIS shares	ember 2014 19,386.5 - 19,386.5	- -	- 355.2 355.2	19,386.5 355.2 19,741.7

There were no transfers of amounts between levels in the nine-month period ended 30 September 2015.

The fair value of the BIS shares is estimated to be 70 per cent of the Bank's interest in the net asset value (NAV) of the BIS at the reporting date. This formula is equivalent to the methodology applied by the BIS to determine the pricing of any new shares issued. While the Bank considers that the 30 per cent discount against the NAV of the BIS continues to be the appropriate basis for valuation, the valuation inputs are not considered to be observable, and a 5 per cent change in the discount to the NAV would not have a material impact on the fair value of the BIS shares. There were no changes to the valuation technique during the three- and nine-month periods ended 30 September 2015.

The following table reconciles the estimated fair value of the BIS shares determined using Level 3 fair-value measurements:

	For	the three-month period ended	For	the nine-month period ended
	30 September	30 September	30 September	30 September
	2015	2014	2015	2014
Opening balance at beginning of period Change in fair value recorded through	379.0	346.4	355.2	337.1
Other comprehensive income	20.5	4.9	44.3	14.2
Closing balance at period-end	399.5	351.3	399.5	351.3

#### Financial instruments not measured at fair value

The fair values of Government of Canada bonds are determined based on unadjusted quoted market prices in an active market (Level 1). The fair value of Government of Canada bonds is \$79,744.1 million at 30 September 2015 (\$75,630.7 million at 31 December 2014).

At 31 December 2014	213.2	22.6	48.1	283.9

Land and buildings include the activities related to the Head Office Renewal Program. In December 2013, the Bank signed a memorandum of understanding with the construction manager that establishes a guaranteed maximum price for future construction at the head office facility. The commitments at 30 September 2015 are primarily associated with the Head Office Renewal Program.

Other equipment includes \$12.5 million for bank note inspection equipment, which was obtained through a finance lease arrangement in 2013. The net carrying amount of the equipment at 30 September 2015 was \$6.9 million (\$8.8 million at 31 December 2014).

#### 7. Other assets

	30 September	31 December
	2015	2014
Bank note inventory	16.8	17.2
Net defined-benefit asset (note 10)	126.5	134.8
All other assets	34.9	29.2
Total other assets	178.2	181.2

Included in *All other assets* is a \$20.0 million advance to CBRE Limited in connection with the Head Office Renewal Program, which is expected to remain in place through to the end of the construction period (\$15.0 million at 31 December 2014). The advance is to facilitate the timely payment of subcontractor agreements.

#### 8. Deposits

The liabilities within *Deposits* consist of \$24,253.0 million in Canadian-dollar demand deposits (\$23,195.6 million at 31 December 2014). The Bank pays interest on the deposits for the Government of Canada, banks and other financial institutions at short-term market rates, and interest expense on deposits is included in the *Condensed Interim Statement of Net Income and Comprehensive Income*.

Deposits from the Government of Canada consist of \$2,432.2 million for operational balances and \$20,000.0 million held for the prudential liquidity-management plan (\$1,526.6 million and \$20,000.0 million, respectively, at 31 December 2014).

#### 9. Other liabilities

	30 September	31 December
	2015	2014
Accrued transfer payment to the Receiver General for Canada	274.7	150.4

Employer contributions	19.4	25.2	-	-
Employee contributions	9.8	7.2	-	-
Total contributions	29.2	32.4	-	-

The Bank remeasures its defined-benefit obligations and the fair value of plan assets at interim periods. The discount rate is determined by reference to Canadian AA-corporate bonds with terms to maturity approximating the duration of the obligation according to guidance issued by the Canadian Institute of Actuaries. The net defined-benefit liability/asset is measured using the discount rate in effect as at the period-end.

The Bank recorded remeasurement losses on the net defined-benefit liability/asset during the three-month period ended 30 September 2015 of \$27.0 million and recorded remeasurement gains of \$1.8 million during the nine-month period ended 30 September 2015 (remeasurement losses of \$28.8 million and \$112.0 million for the three- and nine-month periods ended 30 September 2014, respectively). Remeasurement gains recorded during the nine-month period are mainly the result of changes to the discount rate offset by the returns on plan assets. The discount rate used to value the obligation increased during the quarter.

#### 11. Equity

The Bank manages its capital to ensure compliance with the *Bank of Canada Act*. There were no other externally imposed capital requirements at the end of the reporting period.

The elements of equity are shown in the table below:

	30 September	31 December
	2015	2014
Share capital	5.0	5.0
Statutory reserve	25.0	25.0
Special reserve	100.0	100.0
Available-for-sale reserve	368.6	319.3
Retained earnings	-	-
Total equity	498.6	449.3

#### Share capital

The authorized capital of the Bank is \$5.0 million divided into 100,000 shares with a par value of \$50 each. The shares are fully paid and have been issued to the Minister of Finance, who is holding them on behalf of the Government of Canada.

#### **Statutory reserve**

The statutory reserve was accumulated out of net income until it reached the stipulated maximum amount of \$25.0 million in 1955.

#### Special reserve

The special reserve was created in 2007 further to an amendment to the *Bank of Canada Act* to offset potential unrealized valuation losses due to changes in the fair value of the Bank's available-for-sale portfolio. The amount held in the special reserve is reviewed regularly for appropriateness using value-at-risk analysis and scenario-based stress tests and may be amended, pursuant to a resolution passed by the Board of Directors. The value-at-risk analysis uses historical data to estimate the maximum possible extent of unrealized valuation losses of the Bank's treasury bill portfolio. The scenario-based stress tests assess the impact of a rapid increase in interest rates on the value of the Bank's treasury bill portfolio. This reserve is subject to a ceiling of \$400 million; an initial amount of \$100 million was established in September 2007.

#### Available-for-sale reserve

The available-for-sale reserve represents cumulative movements in the fair value of the Bank's available-for-sale portfolios, as shown below:

	30 September	31 December
	2015	2014
Government of Canada treasury bills	7.2	2.2
BIS shares	361.4	317.1
Available-for-sale reserve	368.6	319.3

#### **Retained earnings**

The net income of the Bank, less any allocation to reserves, is considered to be ascertained surplus and is transferred to the Receiver General for Canada, consistent with the requirement of section 27 of the Bank of Canada Act.

The Bank's remittance agreement with the Minister of Finance was designed to enable the Bank to manage its equity requirements considering the volatility arising from fair value changes and remeasurements (which are recorded in *Other comprehensive income*). This agreement allows the Bank to deduct from its remittances to the Receiver General and hold within *Retained earnings* an amount equal to unrealized losses on AFS financial assets, unrealized remeasurements of the net defined-benefit liability/asset on defined-benefit plans and other unrealized or non-cash losses arising as a result of changes in accounting standards or legislation.

During the nine-month period ended 30 September 2015, the Bank reimbursed \$1.8 million in previously withheld remittances (\$101.4 million withheld during 2014) and, as at 30 September 2015, \$125.2 million (\$127.0 million as at 31 December 2014) in withheld remittances was outstanding.

#### 12. Related parties

The Bank is related in terms of common ownership to all Government of Canada departments, agencies and Crown corporations. To achieve its monetary policy objectives, the Bank maintains a position of structural and functional independence from the Government of Canada through its ability to fund its own operations without external assistance and through its management and governance.

In the normal course of its operations, the Bank enters into transactions with related parties, and material transactions and balances are presented in these condensed interim financial statements. Not all transactions between the Bank and government-related entities have been disclosed, as permitted by the partial exemption available to wholly owned government entities in International Accounting Standard 24, *Related Party Disclosures* (IAS 24).

The Bank provides funds-management, fiscal-agent and banking services to the Government of Canada, as mandated by the *Bank of Canada Act*, and does not recover the costs of these services.
