**86.1 Adoption of Agenda**

The Committee adopted the agenda, as written. Michael Twaits, Peter Loukas and Bruce Wolf attended their first meeting with the Committee.

## **86.2 Report of the Membership Subcommittee (MSC)**

The Chair informed the Committee that as Barry Wainstein had retired from Scotiabank and therefore left CFEC and the MSC<sup>1</sup>, a new member of the MSC would need to be appointed. Once that position has been filled, the full MSC would meet to discuss any remaining membership issues.

## **86.3 Tour de table – FX, Financial and Economic Developments**

The discussion on current financial market and economic developments is not reported in the minutes.

## **86.4 Update on the Canada RMB Initiative**

Steve Boucouvalas provided an update on the recently announced Canadian RMB trading hub. The Industrial and Commercial Bank of China (ICBC) will be the clearing bank for Canada. ICBC is currently testing its systems for this initiative and the Toronto Financial Services Alliance will be holding information sessions in the months ahead.

## **86.5 Implementation of the FSB FX Benchmark Report Recommendations**

The Committee had a discussion regarding the recommendations that were contained in the Financial Stability Board's Foreign Exchange Benchmarks Report.

## **86.6 Draft Expanded Global Preamble**

Rob Ogrodnick updated the members on the status of the expanded global preamble on Codes of Best Market Practice and Shared Global Principles, noting that the Committee could expect to see a second draft in the near future.

## **86.7 Other Business**

The Chair noted that Ed Monaghan would be representing the industry at the next global meeting of FX committees in March. He also outlined some of the expected agenda topics for the meeting.

**Next CFEC Meeting:** 5 May 2015 in Ottawa
